

Saint Henry

973–1024

Born into a royal family in Bavaria, Henry's father was the Duke of Bavaria, and his paternal grandfather was the King of Germany. His maternal grandfather was the King of Burgundy. His father's conflict with Holy Roman Emperor Otto II led to the duke's exile and loss of title. Consequently, Henry was sent to study under the canons of the Cathedral of Hildesheim. Later, he received an exemplary Christian education from Bishop Wolfgang of Regensburg, who was later canonized a saint.

The Miracles of Saint Henry

Immediately after Henry's death, his legend records, many miracles began to occur around his tomb and in the surrounding towns: children were raised from the dead, a blind woman's eyesight was restored, fishermen survived terrible storms at sea.
