## Miracle of St Jean de Brebeuf

**Marie Robichaud, born in 1898 at Shippigan, New Brunswick, entered a congregation of nursing sisters in 1920.  Five years later, in 1925, she was gravely afflicted with fibrocaseous tubercular peritonitis.  Attending physicians finally declared that further treatment was useless.  The afflicted nun, and her community, sought the miraculous intercession of the North American martyrs.  On June 9, 1925, she was instantly and permanently cured.**
